COURSES

Java with DSA and system design, PW Skill
January 2023 — July 2023

Full Stack web development, PW Skill
January 2023 — August 2023

INTERNSHIPS

Front-End Developer at Website Development, Hybrid
February 2023 — March 2023

During my internship at Goaler Web Solution, I contributed to the creation of a stock market registration webpage. I actively participated in the development process, utilizing my skills in web development and incorporating features necessary for seamless registration. Collaborating with the team, I successfully delivered a user-friendly and efficient webpage.

PROJECTS

Food Order Website
January 2023 — March 2023

I developed a front-end project of a food order website, showcasing my skills in web development. The website featured an intuitive user interface, appealing design, and seamless navigation. Through this project, I demonstrated my proficiency in front-end technologies, creating an engaging and user-friendly experience for ordering food online.

Number Guessing Game
January 2023

Developed a number guessing game project, challenging users to guess a randomly generated number within a specified range.
